

Supporting Youth and Adults with Neurodiverse and Gender Identity Experiences: Community Empowerment & Resources

Being neurodivergent and gender diverse can present its own set of unique joys and challenges. The co-occurrence of neurodiversity and gender is just beginning to be noticed by researchers. Inclusive resources can be challenging for parents and family members to locate and access.

Join us for an educational community gathering to open up dialogue and questions, share personal experiences, and exchange supportive resources that will foster connection and support.

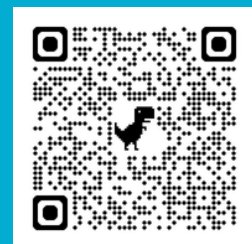

Tues, March 11, 2025 • 6:30–8:00pm

In-person at YES Institute; Light refreshments available

5275 Sunset Drive, Miami, FL 33143

RSVP: <https://yesinstitute.org/courses/education/neurodiversity-pride-community-meeting-at-yes-institute/>
